

Previous providers

Below is a list of our previous providers that we have worked with in the last academic year. It is vital that all of our young people encounter other educational institutions and employers. The list below does not include our extensive links with those who offer our year ten and twelve students a work experience placement. Our providers below have visited our school in a variety of different capacities.

This includes:

- Leading an assembly
- Visiting specific areas of the curriculum and leading lessons
- Being a part of our annual careers fair
